Net weight: 0.3 kg

ABOUT

Vifa City is the sixth wireless loudspeaker from Danish manufacturer Vifa. The brand's audio-roots go all the way back to the 1930's. Initially as a sub-supplier to other speaker-brands, but from 2014 and onwards producing its own range of wireless loudspeakers, building on Vifa's solid experience and proud tradition for craftsmanship.

The result is a series of high-end, highly intuitive and aesthetically attractive loudspeakers.

Bringing an authentic sound to the users has been the brand's core value throughout the years.
