

TABLE RUNNER

Our TABLE RUNNERS can be used as a central part of your overall table decoration or as tete-a-tete table setting. The TABLE RUNNERS come in two different sizes, in a thinner 0,8 mm recycled leather quality. This makes the product flexible to ensure that the recycled leather bends comfortably around the table edge. See the colour selection below.

CUSTOMIZATION

We can customize the TABLE RUNNER according to specific table sizes. If the TABLE RUNNER fits the measures of the table top - and does not bend around the table edge - you can choose among all our recycled leather surfaces and colours.
